LIQUOR DELIVERY PANEL

*with 700111-2-LPC

Space-efficient, remote liquor delivery solution built for modern bar operations. Designed to be installed inside or outside walk-in coolers, cabinets, or service areas, this wall-mounted panel delivers spirits directly from the bottle to bar guns, draft towers, or frozen beverage dispense systems.

Features

- Wall-mounted stainless steel panel
- Compatible with draft towers, bar guns & frozen beverage dispensers
- Remote liquor dispensed directly from the bottle
- Available in 1, 2 or 4 brand configurations
- Air-operated system powered by CO₂, nitrogen, or dry compressed air — no electricity required
- Robust secondary regulators
- Empty bottle detection system (FOB*) prevents air from entering lines
- Bottle holders with parallel plumbing and adjustable support to accommodate various bottle sizes
- Optional locking security cover

Qty	Model
☐	700111-1-LP: 1 brand 1 bottle
☐	700111-2-LP: 1 brand 2 bottles ea.
☐	700112-2-LP: 2 brand 2 bottles ea.
